New album '**Duende A Go Go Loco!**' is going to be hailed as the band's masterpiece; an album that brings together all facets of this unique mongrel offspring of fiery flamenco passion and gritty gutter glam Punk.

The **Gypsy Pistoleros** defy the rules, born roaming somewhere between Zaragoza and Worcester, brought into the world to a soundtrack stack-heeled anthems of sleazy '70s Glam. The songs span madly in the best rock 'n' roll tradition with big hooks, attitude, and sleaze. Yet those flamenco breaks got into your head and refused to leave - this hybrid rocks.

GYPSY PISTOLEROS have burst back onto the Rock scene, they have reinvented themselves, bringing Flamenco Punk Glam Rock n Roll to the masses. Their new album 'Duende a Go Go Loco!' captures an edgier, punkier and heavier side of Gypsy Pistoleros, whilst retaining the Flamenco Rumba heart and fully embracing their fiery flamenco/rumba passion, staying true to their distinctive crossover of punk rock 'n' roll leanings!

"Gypsy Pistoleros may be best described as being the ideal house band for the fictitious Titty Twister bar of Rodriguez's from Dusk Til Dawn. Between the nods to Morricone's tense, tumbleweed atmospheres and the Gypsy Kings' manic Mediterranean energy, a New York Dolls raw glam spark and a surplus of prime G 'n' R attitude!" Planet Mosh

"Gypsy Pistoleros are a thrill-a-minute collection of melodic eye-patch swagger that smells of exotic spices and forbidden concubines. The Gypsy Pistoleros sound like Hanoi Rocks, if Hanoi Rocks were sultans and snake charmers" - Sleaze grinder"

Classic Rock Magazine

"This, actually, is as good as sleaze ever got in the last decade. Gypsy Pistoleros was, and still are, a breath of fresh air. You will never hear another band like this. They are the greatest flamenco punk glam band ever. And that's just a fact. If you don't believe me, listen to this."
