

Brazilian duo Pink Opake unveils "Matéria," an eight-track album that blends coldwave, minimal, and post-punk elements. Exploring themes of love and societal structures, the album offers an intriguing musical journey.

Pink Opake released "Matéria," a distinct fusion of coldwave, minimal synth, and post-punk genres. Emanating from Brazil and recorded between 2022 and 2023, this eight-track album captures the unique energy and creative synergy of its members, Paulo Beto and Tatiana Meyer. Incorporating influential tones from the '80s, the duo addresses timely themes like feminism and societal structures. The album features a special guest appearance by Ana Romano and includes a cover of Muzak's "Ilha Urbana," adding further layers of depth and diversity. This carefully crafted project unfolds over approximately 45 minutes, promising an engaging listen.
