**#40Something** is the brainchild of musical centipede and producer **Domingo Smets** (The Rock Studio) and singer/lyricist **Evy Verbruggen**. This band is their playground where they can create catchy straightforward Rock songs that will remain stuck in your head for days.

“Walk Away” is the first single to be released from this songwriters duo. The song has a fresh and modern sound but with a nostalgic 90’s vibe.

“Walk Away” is available on all popular streaming platforms.
